ANA Executive Director
P.O. Box 2366

Dear Mr. Rochette:

I am writing to you as the National Coin Week Chairman for the Area Coin Club. The attached sheets delineate the individuals/institutions who participated or in some other way assisted in the 1974 National Coin Week observance.

I have included the names of U. S. Senators, U. S. Representatives, the Mayor, the Acting Governor, the newspapers and other institutions who indicated positive support and assisted in making the ANA sponsored National Coin Week a success in Hawaii. We feel that a follow-up letter of appreciation from our Club with the ANA certificate and medal will do much to cement the relations we have initiated and continue to improve their cooperation for future support.

The Area Coin Club has again won the Hawaii State Numismatic Association perpetual trophy for the fourth consecutive time for the best Coin Week participation within the State of Hawaii as determined by a scrapbook competition.

At one of the recent HSNA Board of Directors meetings it was mentioned that you are planning on attending our State Show in November 1974. My wife, Cheryl, and myself are looking forward to meeting you.

Sincerely yours,

Robert R. Maisch

The following U. S. Senators and Representatives answered our letters which urged support for the bills before Congress to proclaim National Coin Week as an annual event. Their replies ranged from indications that they had requested to be added as co-sponsors to those who indicated they would give the bill sympathetic consideration. We think these individuals are also entitled to a memento for the 1974 National Coin Week and this will also give us an excellent opportunity to further cultivate their support for future projects. We know this list is the only one from Hawaii which is requesting certificates and medals. We hope that a master list is kept at ANA Headquarters of individuals who received certificates so that a check can be made to avoid duplicate presentations to members of Congress.
